## SUMMARY

Software Engineer with 4+ years of experience building scalable web and mobile applications using ReactJS, React Native, TypeScript, and JavaScript. Skilled in performance optimization, cross-platform development, and agile delivery. Proficient with AWS, Docker, and modern CI/CD practices.

## SKILLS

- **Languages & Frameworks:** JavaScript, TypeScript, Node.js, ReactJS, React Native, Python
- **State Management:** Redux, MobX, Context-API
- **Testing:** Jest, React Testing Library, Cypress
- **Tools & Platforms:** AWS, Jenkins, Docker, Ansible, Terraform, Azure DevOps, Firebase, Git, GitHub
- **Practices:** Agile Methodology, Cross-Platform Development, CI/CD

## PROFESSIONAL EXPERIENCE

### **Packaged App Development Senior Analyst**

**Accenture Solutions Pvt. Ltd. – Hyderabad, India**

October 2024 – April 2025

- Developed and enhanced high-performance web applications using ReactJS and TypeScript, improving page load speed by 30%.
- Increased code coverage to 90% by implementing comprehensive unit tests using React Testing Library.
- Collaborated in an Agile team of 15+, contributing to daily standups, sprint reviews, and planning.
- Ensured delivery of 3+ feature-rich modules under strict timelines with zero post-production bugs.

### **Software Engineer**

**Webkorps Services India Pvt. Ltd. - Noida, India**

December 2023 – September 2024

- Built ABP Live Android TV app using Amazon Kepler OS; deployed successfully on Fire Stick with 100% functional compliance.
- Led the redevelopment of ABP Network's Android app (10M+ downloads) to React Native, reducing app crashes by 40%.
- Engineered key features such as live TV, multi-language support, and video streaming, improving user engagement by 25%.
- Designed the **Connect Hub** mobile application in 3 months for efficient file management across Android and iOS platforms, leveraging React Native.

### **React-Native Developer**

**Evolve (GTA Solutions Pvt. Ltd.) – Delhi, India**

May 2023 – December 2023

- Integrated new features like dark mode and Instagram-style stories, increasing daily active usage by 18%.
- Deployed fully tested mobile apps to Play Store and App Store, maintaining release cycles every 3 weeks.
- Handled real-time notifications and data syncing using Firebase and Sentry for performance monitoring.

### **React JS & React-Native Developer**

**WorldRef Technologies – Delhi, India**

June 2021 – January 2023

- Designed and launched cross-platform apps using React Native, ReactJS, Redux, JavaScript, Firebase, and Sentry, following Agile methodologies; maintained 99.9% uptime.
- Integrated Google Maps API and implemented real-time chat features, enhancing product usability.
- Reduced onboarding time by 20% via UI/UX optimizations and performance improvements.

## EDUCATION

### **Bachelor of Technology (B.Tech) in Computer Science**

Guru Tegh Bahadur Institute of Technology, GGS Indraprastha University | 2019-23
